

# Felipe Alencar Giacomini

Frontend Developer

## Profile

I have been working and studying software development. I am the type of person that when sees a challenge get restless until it is finished. I like to learn and I have been studying daily for the past few years. Currently I am on the beginning of a career as a software developer. I like to code and love the challenge that it proposes.

## Job experience

Cielo From 03/2022 - Actual Job

I have been working at Cielo since March 2022 where I have had the opportunity to work directly with software developer. It has been a great opportunity to learn, which was my goal when I intered the company. Here I have had the opportunity to work with Angular, SQL, Java, TypeScript, HTML, CSS and Git.

Cadastra From 10/2021 to 03/2022

At Cadastra I had my first job opportunity where I could work with Service Desk, computer maintenance, logists delivering notebooks to employees and also other daily activities.
